## OUR STORY

---

Louie "also known as" Ilias Balomenos was born in a small village in Greece, this home was where he grew up watching how hard his parents worked at such a young age.

By 17, he took the chance with only his work ethic to rely on & came to Canada. He worked through kitchens of fellow Greeks who gave him opportunities all while learning the language. Years later, he ran a handful of successful restaurants, while raising two young daughters as a single parent.

For over the past 23 years, we have celebrated many of our family milestones here & taking part in helping others celebrate theirs. This restaurant has been the core to our family since 2000.

To this day, we all work here together along with a staff that has become a second family. From our home to yours, WELCOME.
